Artist Profile: Neil Catley

Neil Catley, a young photographer based in Coventry who suffered mental health issues and agoraphobia for 5 years and did not go out of the house until one day he picked up a camera bought by his mother. He started to steadily learn to take photographs leading to Neil eventually getting out of the house, with a new given purpose to life. His growth in confidence led to not only the development of his own photography practice but an initiative providing activity for those in the community with isolation or mental health issues. Confidence Through Photography set up by Neil has been a great opportunity for others to develop photography skills and make friends and develop their confidence too.
